ROOM II GRADE IV

*Lorna Clarke, *Jean Lowrie, George Royds, Adeline Mjolaness, Willard Franklin, *Vera Matheson, *Maizie Sinclair, Paul Shellenberg, Sarah Bergson, Mary Miller, Annett Shields, Hector Lamont, Ronald Brightman and Kiffer Stauffer absent.

GRADE III

Irene Bellamy, Eddie Carleton, *Arthur Evans, *Irene Kercher, Alice Violette, Gordon Deddes, Jack Booker, Raymond Kensch, Warren Matheson, Lorraine Durrer, Richard Walder, Agnes Cressman, Agnes Rempel and Mary Newton absent.

GRADE II

Frances Mjolaness, *Bruce Clarke, *Walter Miller, *Florence Kenschuk, *Evelyn McGhee, Henry Wiens, Clarence Cunningham, Irene Kenschuk, Jean Lamont, Georgia Keith, Jack Keith absent.

Names marked with an asterisk are equal in standing.
V. H. Sxsmith, Teacher.

GRADE V

Pupils in order of merit: Herta Shellenberg, Bette Adams, Yeou Kong, Helen Moon, Margaretha Bergen and Steve Weckly equal, Helen Kestman, Ruby Kercher, Violette Franklin and Goldie Gabel equal, Gerald Boettger, Elsie Clue, Harold Shields, Frank Carleton, Herbie Carleton.

Vera Lowrie and Louie Newton equal, Jessie McCoy, Alfred Brusso, Ruth Gabel, Murray Kendrick, Sydney Hall and Annie Keith and Maitland Perrin equal, Gladys Carlson and David Maloche and Margaret Rempel equal, Bernice McGhee, Howard Pichler, Victor Roper, Willie Newfelt, Frank Durrer, John Walder, Lucille Maloche absent.
Miss E. Kline, Teacher.

Results of examinations in grades VII and VIII. Those marked with an asterisk were absent part of the term.

GRADE VIII

Willis Keith, Gertrude Reichmann, Dorothy Hugst, Thomas Clarke, Velma Traub, Eugene Brooker, Tom Royds, Kathleen Pitt, Gordon Boettger, Charlie Geiger, Margaret Geiger, Mildred Roper, Louise Walder, Alfred Durrer, Helen Durrer, Freeda Moon, *May Royds, Ivy Honeysett, Francis Durrer, Amy Lowrie, Lynn Hunsperger, *Verdine Mjolaness, Marion Cline, *Everett Blain.

GRADE VII

Margaret Kercher, Ruby Traub, Mary Rempel, Clara Burkholder, Fred Evans, Sam Lee, Cedina Deddes, Herbert Brooker, Mary Walder, Reta Herber, Herbert Sinclair, Lancelot Carlson, Hazel Hall, Leonard Berscht, *Olive Adams, *Donald Hardy.

Missionary Wedding.

The marriage of Rev. D. C. Eby of Beirut, Syria, and Miss Elizabeth Kemington of Didsbury, Alberta, Canada, took place at Beirut, Syria, November 19th, 1926.

Miss Kemington arrived at Beirut on the morning of the 14th of November on S.S. "Sinai," and as previous arrangements had

been made, and notices of this marriage had been posted at Stirling, Ontario, Canada, and Beirut, Syria, it was possible for the ceremony to take place on the 16th, as had been arranged for.

As it was necessary for British subjects living abroad to be married by the British Consul, the ceremony took place at the British Consulate, in the presence of several friends. This being a civil marriage, the religious ceremony was performed at the home of the missionaries, by Rev. J. Crose of the Church of God Mission. Several Armenian ministers, from Aleppo, Damascus and Beirut also gave suitable addresses, hymns and violin solos were rendered by Armenian young people. After which, according to Oriental custom, lemonade and candy were served to about two hundred guests, each also receiving a little bag of candies to take home with them.

After the guests had departed, Mr and Mrs. Eby left by auto for a short trip to Palestine. They have returned and are busy in the work at Beirut. May God's blessing rest upon this union and upon the work they are engaged in among the Armenian refugees.

WEDDING.

A quiet wedding took place at the home of Edwin S. Eby, 2843 N-Hallilton Ave., Pasadena, California, on Wednesday, the 22nd day of December, 1926, when Louis, eldest daughter of N. T. Eby of Alaska, Alaska, was married to Wm. Robert Whitaker of Los Angeles, Calif.

The Rev. Mr. Robb of the Free Methodist Churches officiating. Those present were Mr. and Mrs. Robb and son, Mr. and Mrs. Edwin Eby, Mr. and Mrs. N. E. Eby and Master Clifford Eby.

Mr. and Mrs. Whitaker will take a short trip to Catalina Island, returning they will take up residence at 636, 84th Place Los Angeles, Calif. by January 1st 1927.

Regular English services will be held at the Westcott Lutheran church, Sunday, January 9th, 10.30 a.m. A cordial invitation is extended.

The Women's Institute will meet at the home of Mrs. A. C. Fisher's on Friday, January 14th, at 2.30. There will be a button hole contest and music. Come and bring friends.

Name Address

International Ignorance

Ignorance and misunderstanding among the nations cause more trouble than the machinations of political leaders, who are blamed for so many of the world's ills. Democratic government, says a Japanese former minister of education, has reached such a state that the few well-informed men of international outlook in any country are overshadowed by the weight of passion, prejudice, and the unreasoning fear and ignorance of the masses. He ascribes the present mischiefs of the world, in nine cases out of ten, to international ignorance and stupidity, and the same cause he assigns as the chief reason for the strained relations which have existed in recent years between the United States and Japan.

This Japanese statesman holds that the greatest need to the development of a better understanding between these two countries is more publicity, the printing by the papers of both countries of more news—more sympathetic news—of happenings in the other country, and a sympathetic interpretation of it. He advocates cheaper radio and cable tolls which, he states, would be an incalculable aid in bringing about the consummation of this campaign of education against the great and always present danger of national ignorance.

Undoubtedly one of the reasons for the sympathetic and good relations existing between the United States and Canada is that we understand each other,—an understanding brought about by a common language, the free exchange of newspapers and periodicals of all kinds, free intercourse across the border by mail, telegraphic, telephone, radio, automobile and train. While maintaining separate nationalities and quite different national ideals, and with no thought of political union, there nevertheless exists the closest ties of friendship and understanding so that the mere thought of war is abhorrent and impossible.

The secret is that we understand each other, and that understanding is the outcome of knowledge of each other. Each country is able to see the other's viewpoint. If, instead of this knowledge, the two great groups of people dividing the North American continent between them were steeped in ignorance of each other, there would be constant friction.

One of the sources of strength possessed by the British Empire is the knowledge which each component part has of the other parts. Statesmen have always recognized the importance of the rapid and continuous dissemination of information throughout the Empire and every encouragement has been given to the provision of inter-Empire means of communication by cables, steamship lines, Imperial penny-postage, and in these later years by the development of aerial communication. Not the least of the advantages of the periodical Imperial Conference is the discussion and understanding of Empire problems which result and from which understanding comes.

So, too, in the annual gatherings of the League of Nations Assembly, and the frequent meetings of the Council of the League and its many committees, is to be found one of the greatest of all preventative of future wars. These meetings bring about mutual understanding and dissipate ignorance and prejudices. Only recently one of the outstanding figures in the public life of Germany of today declared that had there existed the same machinery for consultation between the nations prior to 1914 as is now provided by the League of Nations, the Great War would never have been fought.

The need of the whole world is greater knowledge,—that is greater international knowledge. Fortunately, the trend of modern inventions is to facilitate the dissemination of such knowledge and to promote world travel and international intercourse.

Departing for a moment from the international aspect of this fundamental question of knowledge versus ignorance, it will readily be appreciated that the same truth has equal force when applied to Canada itself. Any weakness in our national position today is to be found in a lack of complete understanding between the different parts of the Dominion, in the fact that Maritime Province conditions are not as fully understood and appreciated in Ontario and the West as they ought to be, and because in Ontario and down by the Atlantic seaboard it is difficult for them to visualize and grasp our Western problems.

In the development of that much to be desired knowledge of each other every possible agency should be employed,—through the press, by means of national conventions, encouragement of tourist traffic within the Dominion, in which good roads, railways and even airplanes will play their part. The replacing of ignorance by knowledge will do more than anything else to create a strong and united Confederation, just as certainly as it will remove causes of international misunderstandings and friction which lead to war.

Always Double Liability

Home Bank shareholders did not have a ghost of a chance to escape double liability when the matter came into court. Purchasers of bank shares do so with their eyes open. If anything happens to the bank, they are liable for twice the amount of their shares. However, most people would take that chance on the stock of the Canadian chartered banks of today.

The city of Detroit was photographed recently from a distance of 216 miles, aviators using a new 45-pound lens, 9 inches thick.

Reatus—"Nigger, ah sho does believe in dis evolution theory: you sho does look like you 'volved from a monkey."

Brown—"Nigger, ah believes in evolution, too; an' nigger, you looks like you ain't 'volved yet."

Forests once covered 822 million acres in the United States. About 25 per cent of this area has been reduced.

A woman is always contrary enough to agree with a man when he doesn't want her to.

Children Cry for

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Huge Amount Left By Auto Tourists

Canada Reaped \$194,000,000 During First Ten Months of Last Year

Automobile tourists from the United States entering Canada during 1926, left a gross revenue to the people of the Dominion of about \$194,000,000, according to a careful estimate made by A. W. Campbell, Dominion Commissioner of Highways. In 1925 the estimated gross revenue from this tourist traffic was \$188,555,400. The latter figure, however, was for the twelve months, while the figures on last year's business was not complete, and only for the ten months ending with October, so that the increase for the entire calendar year of 1926 will show an even larger advance over 1925.

From Jan. 1 to Oct. 31, 1926, the numbers of United States cars entering Canada at Customs ports of entry for touring purposes were as follows: Under the twenty-four hour period, 1,363,105; estimated gross revenue from these, \$27,262,180. Thirty-day-period permit, 530,742 cars; revenue, \$159,222,600. Six-month period, 4,403 cars; revenue, \$7,925,400.

An indication of the extent of the incoming United States automobile tourist traffic is furnished in 1925 year's totals at the principal entry places: Into British Columbia, over the Los Angeles-Vancouver Highway, 70,000 cars; Lord Selkirk Highway, at Emerson, Twin Cities to Winnipeg, 6,000 cars; Soo, 6,000 cars; Sarnia Port and Port Huron, 50,000 cars; Detroit, 90,000 cars; Niagara Falls and Bridgeburg, 820,000 cars; Kingston, Prescott and Brockville, about 13,000; St. Lawrence River or Quebec Province, about 460,000 many of which were for the one-day period, as only a narrow river intervenes.

The explanation offered as to the large number of cars entering at the Niagara border compared with the small number at Quebec points is that there are many sightseers at Niagara Falls and many commercial transactions between United States and Canadian towns and cities there.

The Proven Asthma Remedy. Since asthma existed there has been no lack of much heralded remedies, but they have proved short-lived and worthless. The ever-growing reputation of Dr. J. D. Kellogg's Asthma Remedy has given it a place in the field of medicine which no other can approach. It has never been pushed by sensational methods, but has simply gone on effecting relief and making new converts.

Uses American Slang

American slang has become a part of everyday speech of Anton Lang, the "Christus" of the Passion Play at Oberammergau, said Prof. C. H. Conley of Wesleyan University. The professor visited Lang while in Germany last summer and noticed that while he spoke excellent English he frequently used with evident delight many colloquial phrases which he had garnered while in this country.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy easers of pain, because they promptly remove the worms that cause the pain, and thus the suffering of the child is relieved. With so sterling a remedy at hand no child should suffer an hour from worms.

Lolds "Great War" Sale

Britain Disposing of Left-over Properties Worth Millions

England will finish one of the biggest jobs of salesmanship ever undertaken by a single government when \$3,100,000,000 worth of property from practically every former fighting front of Europe will be disposed of about March 1st.

Lands, buildings factories, railway materials, foodstuffs horses, barges, medical supplies, and a host of other items are included in the list of properties left on the hands of the government at the close of the war.

The commission in charge of selling began its work in 1919 with a staff of 47,000 men. Five are handling the final phases of the job.

A lover of a former day would thus describe his fiancée: "She's quiet and timid as a mouse, and wonderful about the house." Whereas, a sheik would say right now: "I'll tell the world my gal's a wow. A classy kid, just fulla pep. Yuh ought ta see that baby step."

Letter Was Delivered

A remarkable incident has been reported—the case of a child at Houston, Texas, who addressed a letter to Santa Claus to Northland, Canada, and the epistle through the efficiency of the American and Canadian postal employees, reached Northland on the A.C.R., 21 miles north of the Soo.

Twenty-two pounds of sugar can be made from a bushel of corn by a new process used by the Department of Agriculture.

"As a man thinketh, so he is," chanted the minister.

"I don't know about that," replied the machinist, "many a man thinks he is the berries when he is really nothing but a nut."

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

Bamboo is the latest material for making paper. Bamboo, long regarded as a weed in India, has become an important commercial product.

Genuine ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoacetic-acid of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

NO AMBASSADOR FROM AUSTRALIA TO UNITED STATES

New York.—"I do not think the time is ripe for the appointment of a minister to the United States, and believe that Australia is well served by the diplomatic corps of Great Britain, without engaging in that expensive amusement herself."

So declared Premier S. M. Bruce of Australia, on his arrival in New York from Europe.

Even the possibility that South Africa may follow the procedure of Canada and Ireland in the appointment of ministers, Mr. Bruce said, would not gauge the program for Australia. He said that there is excellent reason for the naming of ministers from Canada to the United States as their adjoining boundaries and their waterways and other problems arising from their proximity to each other are frequently best met by diplomatic negotiations. He said the relations between Australia and the United States are at present on more of a trade basis than a diplomatic one, and for that reason a commissioner best served the purpose.

Mr. Bruce said that among the matters he would invite discussion upon when he visits Washington and which he would negotiate without the aid of any factors save those of goodwill, ship would be the one of lengthening the period in which Australian businessmen may visit in the United States without, as he expressed it, awakening one day to find the horrible moment is upon them when they must leave the country."

Woman Will Compete In Quebec Dog Derby

Announces Intention of Driving Ten Labrador Huskies

Quebec.—Mushing through Canadian snows behind a snapping, growling, jostling dog team is a man's job but when the famous Quebec dog derby gets underway this winter, for the first time in the history of the derby, a winsome resolute woman will line up at the starting post with "Canada's best and hardest."

Mrs. Frank A. Wheeler, of North Conway, Mass., has written the officials in charge of the event here, asking for full particulars as to the running of the race, and also for an entry blank.

Mrs. Wheeler has a team of 10 Labrador huskies and expects to finish in the prize money.

Another outstanding figure in the dog world who may also take part is Sepalla, hero of the 400 mile non-stop trip to Nome, Alaska, a couple of winters ago, when he mushed that distance with his dogs carrying a load of serum to save the inhabitants of the little mining town from diphtheria.

Sepalla is going to run in the New England dog derby, to be run at Berlin, February 10, 11 and 12, and efforts will be made to have him come to Quebec up for competition here.

Will Continue Arctic Exploration Work

Captain Wilkins Leaves Seattle for North Pole February 5

Detroit, Mich.—To pick up his Arctic exploration work where he left off last spring, Captain George H. Wilkins plans to leave Seattle for the north on February 5.

Two aeroplanes, the Alaskan and the Detroit, are stored at Fairbanks, and Captain Wilkins plans to place the wings of the Detroit on the fuselage of the Alaskan and then fly from Fairbanks to Point Barrow. At the latter point 3,500 gallons of gasoline has been stored in preparation for the flight towards the North Pole.

A series of mishaps delayed the start of the expedition last spring until weather conditions made Arctic flying impossible.

Miner Is Killed

Drumheller.—S. W. Breton was killed between two cars at the Western Gem Mine about 7 o'clock Monday evening. His people live at Warwick, Alberta.

Specialist Dies At Sea

Dr. Ross Had Done Valuable Work in Cancer Research

London.—Dr. Hugh Campbell Ross of London, director of the McFadden Research Foundation, who had done valuable work in the investigation of cancer, died at sea on his way to England, aboard the liner Narkunda. He was buried at sea.

Dr. Ross, besides being at the head of the McFadden organization, was Director of the Lister Institute of Preventative Medicine. He was 51 years old, a son of Sir Campbell C. G. Ross, K.C.B. He served in the South African War as a surgeon. While medical health officer at Calro, under Lord Cromer's Administration in Egypt, he started mosquito extermination there. Since 1910 he had been occupied chiefly with cancer researches at the two institutes of which he was director. Several new methods of research were developed under his leadership. He devised several processes for the prevention of industrial cancer.

Gasoline Was Fatal

Constable in Far North Loses Life Through Using Gas for Lighting Fire

Edmonton.—According to word received here from the far north, Constable Frederick Rhode of the R.C.M.P., used gasoline to light a fire in the barracks at Fort Rae, resulting in his death and injuries to Constable E. L. Armstrong. News of the tragedy was given out at police headquarters in Ottawa, Monday.

Letters from Fort Rae state that Rhodes was lighting the fire and poured some gasoline on the smoldering wood.

A four-gallon can he had in his hands exploded and enveloped him in flames which Armstrong vainly tried to quench. Before he could even get Rhodes outside the buildings were a raging inferno, and everything the men had was destroyed.

Russia Will Build Rainmaking Machine

Factory for This Purpose Being Built at Leningrad

Leningrad.—A factory for building rainmaking machinery is under construction here. The Leningrad Mellorative Institute recently sent a rainmaking expedition to the remote Trans-Caucasian farming station of Ganji, to make careful experiments in rain production. On the basis of this expedition's report of great success, construction of the factory was begun. Further tests in the Mugan steppe and in Central Asia are being made. The nature of the rainmaking method and the character of machinery necessary to produce rain on demand has not yet been explained.

Grain Rates Case

Privy Council to Hear Appeal of Western Provinces

Edmonton, Alta.—Premier Brownlee has been advised from Ottawa that Jan. 10 has been set as the date on which the privy council of Canada will hear the appeal of Alberta, British Columbia and Saskatchewan, in connection with the grain rates discrimination case. This is the outcome of a finding by the board of railway commissioners in which the board tried and was unable to give a definite decision, proposing that the case be held over until the general freight rates investigation has been disposed of. The three provinces joined in an appeal to the courts for an order directing the board to give a decision.

Alberta Power Problem

Calgary.—Premier Brownlee of Alberta, Hon. Charles Stewart and probably Mayor Webster of Calgary, will meet in Ottawa between January 5 and 8 to discuss settlement of the power problem of Southern Alberta, according to information received by Mayor Webster from Mr. Stewart. Among other matters that will be taken up will be that of hydro-electric power development from Spray Lakes in Banff Park.

Decrease in T.B.

Washington, D.C.—Americans are dying considerably less rapidly than in the past from tuberculosis, pneumonia and cerebral hemorrhages, but are succumbing more frequently to heart affections, cancer and kidney disorders.

DENY ANY CHANGE IN IMMIGRATION LAWS OF U. S.

Washington.—No unusual tightening of immigration restrictions along the Canadian border has been ordered by United States immigration officials, Immigration Commissioner Hull said, but he pointed out that aliens should be prepared to prove their right of residence when they go out and re-enter.

"Unless they have some evidence to submit to immigration inspectors that they are legally entitled to live in the United States," he said, "They are likely to meet trouble and delay. At the very least, they must be able to give information as to the ports through which they first entered this country so that our records can be looked up to make the matter certain."

A despatch from Vancouver said a number of British-born residents of the United States who went to Canada for Christmas had found themselves barred from returning to the United States because of a sudden tightening up of immigration laws. The despatch said many had businesses in Pacific Coast cities and that protests and appeals had been forwarded to Washington.

Leave on Mystery Survey

Reason for Engineer's Trip North of the Pas Not Known

Saskatoon.—A despatch to the Saskatoon Star from The Pas states that a mysterious survey party consisting of three engineers, 30 men, six teams and 34 tons of supplies has left presumably to spy out the country between the Limestone river, on the Hudson Bay Railway projected route, and Fort Churchill.

While definite information could not be obtained, it was understood at The Pas that a possible route for a short line connecting the present Hudson Bay route to Port Nelson with Fort Churchill would be sought.

Opposes War Debt Agreement

Paris.—Former Premier Millerand is fundamentally against ratification of the Washington agreement for funding the French war debt to the United States, he declared in an interview with L'Avenir on the eve of launching his campaign for re-election to the Senate.

Black Plague in Russia

Irkutsk, Siberia.—An epidemic of black plague taking a hundred per cent mortality toll has broken out on the Mongolian steppes near Irkutsk. The Government has sent a medical expedition to the stricken area.

Eckner Will Attempt Non-Stop World Flight

Plans to Use New Zeppelin Now Under Construction

Friedrichshafen.—Dr. Hugo Eckner will attempt a round-the-world non-stop flight with the Zeppelin L-Z127 as soon as it is completed and tested, it has been learned. The progress on the new ship enables the prediction to be made that it will leave its hangar for the first trial flight about the middle of June, and should be ready to encircle the globe during the autumn.

Dr. Lempertz, a chemist of the staff of the Zeppelin Works, warrants the utility of the new airship, which will be 50 per cent larger than the Los Angeles. A new invention, which is being guarded with the greatest secrecy is said to guarantee the greatest safety. Special attention is being given to the radio equipment, with which it is hoped to keep in constant touch with the earth and from which steering directions will be given.

Though the ship will follow the proposed Seville-Buenos Aires line and go thence over the Pacific Ocean, there is a possibility that no landings will be made, since a new light fuel gas instead of heavy gasoline will give the Zeppelin a cruising radius of 60,000 miles. Successful tests of the new gas fuel have been made with the Maybach motors.

At present the Zeppelin Works are engaged in putting in the ship's ribs of duraluminum. Gondolas and other important parts have already been completed. After the world flight the ship will be put in European-South American service.

Friendship With Japan

General Booth Advocates Drawing Together of Eastern and Western Nations

London.—General Bramwell Booth, head of the Salvation Army, returning from his world tour, declared that he could see no greater blessing to the world than the drawing together of the eastern and western nations.

Ten thousand salvationists gathered in Albert Hall to welcome their chief home. He described his travels and experiences, and admonished his hearers.

"Let us cultivate friendship with Japan, for friendship with Japan is worth to our nation more than any amount of armament."

Manitoba Oil Well

Yorkton.—Twenty barrels of crude oil from the Ross well in the Grandview, Man., field, were shipped to Winnipeg recently. The oil will be used for exhibition and advertising purposes. It is the first crude oil ever shipped from either Manitoba or Saskatchewan he claims.

RUM EXPORTERS MAY BE DRIVEN OUT OF BUSINESS

Vancouver.—Although refusing to concede that seizure by Canadian customs of a \$350,000 liquor cargo on the auxiliary schooner Chris Moeller will establish a precedent governing future shipments, Vancouver liquor exporters are perturbed, according to the Province.

They see the hand of the Canadian Government extended to help the United States enforce its prohibition laws; and they fear that Dominion customs officers will in this endeavor emulate practices of American liquor enforcement authorities so that what it is impossible to accomplish according to the letter of the law will be brought about indirectly.

To be more explicit, they say that the Chris Moeller seizure heralds costly litigation, which, with other hazards of the business, would financially ruin exporters and make the game not worth the candle. They are up against heavy expenses south of the international boundary, they point out, and if confronted with the same situation here there will be no profit in the business.

When exporters speak of emulating practices of American liquor enforcement authorities they mean that the latter seize, for example, a rum-running ship 20 or 30 miles out at sea, where she has a legal right to be, and then institute prosecution with all its incidents of heavy bail and expensive lawyers which, in the end, breaks the morale of the owners.

Harassed on both sides of the line, liquor exporters may be driven out of business. The more certain prospect of losses and of protracted litigation are both factors which they are considering.

Prairie Air Mail Service

Conditions in Western Provinces are Ideal for Experiment

Edmonton.—Air mail service for Canada is very probable in the near future, and with an air port already in existence, Edmonton will likely be one of the first cities served in this respect in the west, said K. A. Blatchford, M.P. for East Edmonton, following receipt of a letter from the Postmaster-General of Canada relative to air mails.

"The Postmaster-General has the matter under consideration at the present time, and it has been pointed out to him that there is no better place to experiment with an air mail service than on the prairies," said the East Edmonton member.

Air force officers from High River Field will be in Edmonton early in the new year to carry out a series of experiments in connection with winter flying, and according to air force experts and postal authorities there is little to hinder the establishment of an air mail service across Canada.

Trans-Atlantic Telephone

Fee From London to New York Will be \$75 for Three Minutes

London.—Trans-Atlantic telephone service which is to be available to the public early in January will cost £15 (about \$75) for the first three minutes of a call and £5 for each additional minute. It was announced today by the postmaster-general.

Wrong numbers won't count, however, and unless the London "hello girl" gets the particular person asked for in the New York area, to which the service is limited at present, the charge will be £2 for making the attempt. Calls will be limited to 12 minutes when others are waiting to talk across the ocean.

Ratified by Senate

Mexico City.—The Mexican Senate ratified the British-Mexican claims convention for revolutionary damages suffered by British subjects from 1910 to 1922. The Senate also amended the existing treaty of commerce between Mexico and France.

U.S. Steamer Founders

Paris.—A telephone message by way of Berlin to the Paris Mldi says the United States steamer Astoria has foundered in the Black Sea, near Kavarana, Rumania, with the loss of 21 lives.

Honor Canadian Pacific Liner

When the Canadian Pacific liner Melita steamed into the harbor of Antwerp towards the middle of November, it was the occasion of a great celebration, for she was the 10,000th ship to enter the Belgian port this year. Never in the history of the port has such a record been established. King Albert of Belgium, upon hearing the news, wired his sincerest congratulations to the Burgomaster of Antwerp. The entire city rejoiced and celebrated. Huge crowds cheered Captain A. H. Nolley of the Melita

and his staff as they made their way to a grand demonstration in their honor at the Hotel de Ville. The historical event was climaxed by a luncheon on board the Melita in honor of the Antwerp personalities. W. D. Grosset, managing director of the Canadian Pacific in Belgium, was nominated a Knight of the Order of King Leopold.

The photograph shows from left to right: W. D. Grosset, Captain A. H. Nolley, commander of the Melita, and Mr. Van Cauwelaert, the Burgomaster of Antwerp.

Local and General.

The comparatively mild weather prevailing over the holidays completely upset the curlers' schedule and for some days play was suspended. This week, however, with cooler weather, the curling rink again assumed a more animated appearance, and interest in the games is as keen as ever. The Club Cup in the first schedule was won on Tuesday night by McCloy who played off with Kauffman in the final. The winning rink comprised McCloy, (skip), Fleury, McCoy, and Kendrick.

J. Huget took his rink to Innisfail on Tuesday night to play in the final of the bonspiel.

If "time and tide wait for no man," neither does the Chinook. The ice carnival which was to have been held here on New Year's Day and put Didsbury in the same class as Banff and other places which boast of having winter sports, had to be postponed on account of our temporary transfer to the banana belt.

A recent arrival from Vancouver reports that a serious form of influenza is raging throughout the city and its suburbs. Various theories have been advanced for its appearance, general opinion, however, attributing it to the changeable weather. Frost, snow, and rain do not seem to provide a pleasant dish.

With Chinooks at Didsbury and

wild geese at Winnipeg, "Old Man Winter" is receiving a few rude jolts these days. Apparently, Bowden has also received one as it has dropped out of the Hockey League.

In place of the carnival which was to have been held on New Year's Day, it is now proposed to hold a program of broom ball, basket ball and hockey Friday week. Needless to say, there'll be some fun.

The Didsbury hockey boys expect to play their first game at home on Friday night.

Mr. Melville Anderson, optician regrets that owing to a mishap en route to Didsbury, January 5th, he was unable to be at H. W. Chambers' drug store as advertised. His next visit will be Wednesday, January 19th.

Mr. and Mrs. E. Cressman spent the New Year with friends in Calgary.

Alec. McInnis, who has for some time been working in Calgary, had an accident in which his leg was severely crushed, and which now has resulted in amputation of the limb. The operation took place on Tuesday night and is reported to have been quite successful. Alec has many friends in Didsbury and his further progress toward recovery

will be the hearty wish of them all.

Miss Winnie Studer and Miss Chambers entered Mount Royal College on Monday and will remain for a course of study.

Several cases of petty thieving have been reported as having occurred around town, and the theory is advanced that it may be the work of outside talent. Outside or inside, however, the talent obviously is not very desirable, and it would seem advisable for householders to try and discourage it by securely locking up their sheds. The other night someone paid a visit to Lloyd Liesemer's and from a shed abstracted several articles belonging to the local hockey team among them being a body protector gauntlets, shin-pads, and a sweater. Should these articles be seen, or their whereabouts known, information will be much appreciated by the local hockey boys.

Marshall Miller, our local oil "maggot," is actively engaged just now in supplying the town with ice.

W. Moore is drilling a well for Mrs. Mueller.

W. C. Wigley has been to Calgary undergoing X-ray treatment.

Mrs. N. S. Snyder is reported to be very ill.

Vernon Cummings of the C.N.R. Electrical Dept., Winnipeg, is spending a few days visiting with his sister, Mrs. W. J. Hillyard.

The W.C.T.U. will meet at the home of Mrs. B. A. St. Clair on Wednesday, January 12th, at three o'clock sharp. The subject will be "Current Events," along temperance lines. All members and friends are given a cordial invitation to attend.

The meeting of the Y.W.C.T.U. will be held at the home of Mrs. E. Gowdie on the evening of January 10th, 1927, at 8 o'clock. Everyone welcome.

Opera House Donates Evening to Hospital.

Following the usual custom of donating one evening's program to the Didsbury hospital, the management of the Didsbury Opera House have chosen their regular show night on January 26th, and for the occasion have selected "Laddy" taken from Jean Straton Porter's novel. Usual prices. The management expects to put the receipts over the century mark. It's up to you.

Owing to the popularity of Johnny Hines in the "Early Bird" we are holding it over and will play it on Saturday night. On January 12th, "The Flaming Frontier."

Vancouver.—According to statistics prepared by the Vancouver Merchants' Exchange, the foreign trade export of the port has increased 400 per cent. in the past five years, while the import trade has increased 51 per cent.

In a recent report from the Canadian Pacific Agent at Shanghai received at Montreal it is stated that the summer in vicinity of Shanghai has been trying on account of drought. This may have a disastrous effect on the crops. The long and intense heat wave was only recently broken by a typhoon which struck the Coast near Shanghai.

A plan is projected by the Osaka Prefectural Government authorities in Japan for the promotion of a large exposition in commemoration of the tenth anniversary of the restoration of world peace. It is expected that the exposition will be opened in Osaka in 1929. The plans for the exposition, which will be carried out at tremendous cost, have been approved by the Prime Minister.

So successful on Canadian farms have been young bachelors, who, prior to residence in this country were students in agriculture at the Hodgeleigh Salvation Army Schools in Essex, England, that the Army will shortly receive into those institutions their first classes of married men destined for farm lands in the Dominion. The course will be given during six months, and will mean a thorough training in branches of agriculture, particularly adapted to conditions in Canada.

Prospects for the establishment of an air route in Japan for mail and passenger service have brightened with the announcement that the Ministry of Communications have included an appropriation in the budget of the Communications Department for such a service. It is anticipated that there will be enough passengers willing to pay double the railroad fare for the sake of speed between Osaka and Tokyo, the leading cities of Japan.

Thirty students from Oxford and five Agricultural College, Kent, England, returned home on the Canadian Pacific liner Montclare recently after having assisted in the harvesting of the Saskatchewan crop. These young men were brought out to the Dominion by the Department of Colonization and Development of the Canadian Pacific Railway, and placed on selected Saskatchewan farms by the Women's British Immigration League. The students are resuming their studies in England this fall.

G. Walter Booth, Prosecuting Attorney for the State of Ohio, in an interview in the tourist department of the Canadian Pacific Railway at Montreal recently, stated that American hunters were choosing Canadian hunting grounds in place of those in the United States practically without exception. Americans, he said, were taking one hundred per cent. interest in Canadian game resorts. Mr. Booth is at present in Canada on his annual duck hunt near Winnipeg, and also a big game trip in north-western Quebec.

"There is no chance of another
general strike in Great Britain for
a generation and perhaps longer,"
is the view of Victor Suhr, news
editor of the Evening News, London,
who spent a short vacation in
Canada recently. He thought the
miners' strike in Great Britain
would not be settled before the fall
and perhaps not until the winter.

The fishing season opens again
August 15 on Lesser Slave Lake and
Lake La Biche in Alberta. There
are approximately 100,000 pounds
of white fish to be shipped during
the season from Lake La Biche and
over half a million pounds from
Lesser Slave Lake as well as a
considerable quantity of jackfish
and pickerel from both.

Canada's estimated wheat yield as
indicated by crop conditions on June
30 is 848,626,000 bushels. The
yield estimated for the Prairie Provinces
according to the Bureau of
Statistics report is 327,226,000
bushels and for the rest of the Dominion
21,400,060 bushels. Total estimated
yield for oats is 458,840,000
bushels and for barley, 100,824,000
bushels. For rye the total estimated
yield is 11,762,000 bushels and for
flaxseed 8,419,000 bushels.

The recently organized egg and
poultry pool in Saskatchewan has
17,000 members. Egg production in
that province is 33,672,233 dozen
yearly. Saskatchewan is now the
second largest poultry producing
province in Canada, Ontario being
first.

St. Catharines—The North American
celery championship has been
awarded to James Little of this city
by the American Vegetable Growers'
Association, convening in Cleveland.
The high quality of Canadian
celery has long been recognized and
this new triumph is expected to further
stimulate production.

The Australian Cricket Team,
heroes of five test matches against
England this summer, arrived in
Canada on the Canadian Pacific
liner Montrose, October 8th. After
visiting some of the principal cities
in Canada and the United States,
the team proceeded to Vancouver
where they sailed on M.S. Aurangz
for their homes in Australia, October
21st.

For the third year in succession
the McAdam First Aid Team from
New Brunswick carried off the
"Grand Challenge Trophy," emblematic
of the eastern lines first aid
championship of the Canadian
Pacific Railway. The competition
was held recently at the Place Viger
Hotel in Montreal, four other teams
from points east of Fort William
competing.

The oldest employee of the Canadian
Pacific Railway in point of
service, Isaac Gouverneur Ogden,
vice-president in charge of finance,
celebrated his 82nd birthday October
10th. He has served the Company
for 44 years and his business
experience goes back to the Civil
War days. Mr. Ogden was the
recipient of felicitations from all
parts of the Dominion.

Monsters of a Million Years Ago

View of "Bad Lands" of Alberta. (Inset) Drawing of giant dinosaurs of past ages.

The majority of tourists who travel across the open
prairies on the Canadian Pacific line east of Calgary,
are unaware as they look towards the north that
there is to be found anything to interest them
except the prairies and prairie towns. But not many
miles distant from the railway, where the Red Deer
River cuts through the prairie, lies a valley known
as the "Bad Lands." This is a valley beside which
the Rocky mountains are young—a valley whose
bottom-lands record that once they were an inland
sea along whose shores, millions and millions of years
ago, lived those walking, creeping, crawling monsters
known as dinosaurs.

Only with the discovery of the dinosaur skeletons,
and as a result of the numerous expeditions sent into
the Bad Lands of the Red Deer by the Government
and by museums both in Canada and in the United
States, has the river valley taken on a wider interest.
Each season adds not only to the number of collecting
parties but also to the number of tourists who
are attracted by the picturesque character of the canyon
and whose imagination is thrilled with the thought
of the age-long secrets which the valley is beginning
to make known.

When and how did these dinosaurs live? What
was the world like during the time when they flourished?
How would this very valley have appeared
at that time and what other creatures were to be
found there with them? Such questions naturally
arise as the dinosaurs take on a larger measure of
reality.

At first one is likely to think of all these extinct
animals as merely prehistoric, living hundreds of
years, of course, before even Tut-ankh-amen, but perhaps
at the same time as our cave-dwelling ancestors,
with whom they may have contended for the mastery
of the earth. The written records on which history
is based extend back, comparatively speaking, only a
few centuries; even the oldest, those of Egypt and
Chaldea, cover but sixty centuries. The still earlier
periods when man lived in savage and barbaric tribes
take us back only one hundred thousand years, and
as no fossil remains are found in strata of that date
it is evident that these huge reptiles had long been

extinct even at that time. In bigness these dinosaurs
have never been exceeded. The herbivorous group
were the largest; they browsed on the rushy vegetation
and among the ferns and bushes, or stood up and
grasped trees with their fore-legs while they devoured
the foliage. Many of these were giraffe-like wanderers
whose long fore-limbs and immensely longer necks
enabled them to take refuge in deeper waters, more
out of reach of the fierce carnivores of the land. The
Diplodocus, a herbivorous dinosaur whose skeleton is
in the Carnegie Museum, Pittsburgh, measures eighty-
seven feet in length, and a still more colossal one
found later and known as Gigantosaurus measures
well over one hundred feet.

The carnivorous or flesh-eating groups were not
so large; they were more active, however, and preyed
upon the herbivores. Though equipped with frightful
weapons they were considerably inferior in intelligence
to the modern crocodile or lizard and far below
the bird or mammal. Of these, Tyrannosaurus rex
almost "the last word in frightfulness." It reached
the length of forty-seven feet, and in a standing position
the animal was eighteen to twenty feet high as
against twelve feet for the largest African elephant.
The long deep powerful jaws were set with teeth from
three to six inches long and an inch wide.

To protect them from these flesh-eating dinosaurs,
many of the herbivorous ones were completely encased
in armor. Such as Ankylosaurus. Plates covered
the skull, neck, back and hips, and even the belly
was covered by a pliable mosaic of small close-set
plates. It was further protected by a movable plate
that could be dropped like a shutter over each eye.

The Geological Survey at Ottawa now has a remarkably
fine collection of dinosaurian remains mounted
and on exhibition at the Victoria Museum, Ottawa,
and are also to be seen at the Royal Ontario
Museum, Toronto. The field has by no means been
exhausted. Under miles of prairie land the same
strata are undoubtedly filled with similar fossiliferous
erosion is rapid, and as the river continues to wear
its banks away new fossils are exposed. For all time
to come the Red Deer River will be a classic locality
for collecting prehistoric treasures.

SCOTT'S EMULSION

WORLD HAPPENINGS BRIEFLY TOLD

As a measure of economy the man power of the Belgian army is to be reduced from 77,000 under arms to 62,000, or twenty per cent.

Jabe Mason, 94, died in Toronto, recently. He was the oldest twin living in Canada, his twin sister having predeceased him in April last.

It is being whispered about that King George within the last year or so has practically become a teetotaler. Hot milk is said to be his favorite drink when he is alone or in the circle of his family.

Nearly one and one-half million dollars will be spent by the Japanese Government for the funeral of Emperor Yoshihito, who died December 25. The funeral will take place late in February.

The Verwood Oil Co., with a capital stock of \$200,000 divided into shares of \$1 each has applied for and received incorporation from the Dominion Government. The headquarters of the company is at Verwood, Saskatchewan.

Farmers residing within a few miles of Prince Rupert, B.C., have become members of the Alberta Wheat Pool and have signed contracts to ship their grain through the pool. A sample of wheat sent from that district graded No. 1 Northern.

Canada's employment index number stood at 101.1 on December 1 last, as compared with 102.8 in the preceding month, and 95.3 on December 1, 1925. Despite the seasonal curtailing registered on the first of the month, however, employment continued at a higher level than in any month of the years 1921-1925.

Osborne College, Isle of Wight, is to become a training centre for emigrants for the Dominions, under the joint auspices of the Y.M.C.A. migration department and the Church of England council for empire settlement. It is hoped to give a preparatory training to 2,000 men and boys yearly for life in the Dominions.

HAD BAD SPELLS WITH HER HEART

Mrs. B. G. Hall, Bolton Centre, Que., writes:—"Some time ago I had bad spells with my heart which I believe was caused by nervousness. I tried everything I could think of, but could get no relief until one of my friends persuaded me to get a box of

After I had taken a few boxes I got wonderful relief.

I now weigh one hundred and thirty-five pounds where, before, I never went over ninety."

Price 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The average level of the cost of living in Great Britain on the first of October, 1926, was 74 per cent, above that of July, 1914.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Crank: "How did you cure your wife of her antique craze?"

Shaft: "Oh, I just gave her a 1907 model automobile for her birthday."

When a man gets to the point where he is too lazy to loaf without a salary his friends get him a political job.

John Bunyan's First Book

Story for Boys and Girls Now in Harvard Library

A forty-four page edition of John Bunyan's "A Book for Boys and Girls," of which there is only one other known copy in the world, has been presented anonymously to the Harvard Library. It has been announced by George P. Winship, in charge of the treasure room. The book was discovered by Miss Miller, a postal employee in Hemel, Hampstead, England, and was auctioned off to a London book dealer for \$10,350. The book, which was published in 1688, is being given in memory of Lionel De Jersey, Harvard '15, who was killed in action in France during the Great War.

For Aches, Pains, The Safe Home Remedy NERVILINE

When sudden sickness comes, when the kiddies come in with colds, their little chests and throats sore from coughing, quick results always follow a vigorous rubbing with good old Nerviline. If it's Cramps, Colic, Diarrhoea, Nerviline is a wonderful friend; it brings ease and comfort so quickly. For young and old, to overcome the minor ills that constantly arise in the home, nothing compares with "Nerviline."—25 cents at all dealers.

School Smartness for the Young Girl

The frock illustrated gives you an idea how smart a school frock can be when made from flannel, with just the right touch of contrasting color used for collar, cuffs and belt. There is an inverted plait at each side of the skirt front, and the back is plain. The narrow belt fastens with a button at each side, while the long sleeves are gathered to cuff bands. No. 1397 is in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2 1/2 yards 39-inch material, and 1 1/2 yard contrasting. 20 cents.

Many styles of smart apparel may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

New Discovery Is Important

X-Ray Films Reveal Processes of Human Body

A method of taking X-ray films of the processes of the human body has been discovered by three British scientists, it was declared. The problem, which has long baffled American and European scientists, has been solved by Frederick Melville, radiologist at the University College of London, and E. E. Warnford and E. W. Edwards of the British Instructional Films Company.

As a result of this new invention the public soon will be able to see films showing the beating of the heart, the respiratory movements of the lungs and the various stages of the digestion of food.

The method is said to be precisely the same as when ordinary motion pictures are taken, except that X-ray is used. The scientists, however, do not disclose the secret of the method, by which, as the sequel of two years' experimentation, they have overcome the difficulty of obtaining sufficiently strong illumination without injuring the skin of the subject.

The discovery is declared to be of the greatest importance from a medical viewpoint both for teaching and research. Physiologists will be able to obtain exact information about many processes which thus far have been judged only by inferences.

REGAINED HEALTH IS NOW HAPPY

The Experience of a Quebec Woman With Dr. Williams' Pink Pills

Mrs. L. D. Bernier, 89 D'Arguillon street Quebec, is one of the thousands of women who, when she found her health failing, resorted at once to Dr. Williams' Pink Pills, and now finds herself in perfect health. Mrs. Bernier says:—"I was very weak, subject to headaches and was unable to sleep well. Testimonials in the newspapers persuaded me to try Dr. Williams' Pink Pills, and the result has been most satisfactory. I have regained my health, the headaches have left me; I sleep well at night, and I have gained in weight. Naturally I am feeling happy. I strongly recommend Dr. Williams' Pink Pills to all weak people."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. If you will send us your name and address a little book, "Building Up the Blood," will be mailed you prepaid. This little book contains many useful health hints.

You can get these pills through any dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Magistrate—"You say he said you had the face and habits of a monkey, and that he could make a better man than you out of chewed string? What happened then?"

Victim—"He then became abusive."

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Mr. Nouveau (explaining his new radio set): "Y'see, the waves ain't sound waves or electric waves—they're ether."

Mrs. Nouveau (correcting him): "Eyther, George."

Frostbites.

Ease the pain with Minard's Counteracts Inflammation, soothes and heals.

SUNDAY SCHOOL LESSON

JANUARY 9

THE STANDARD OF CHRISTIAN LIVING

Golden Text: Ye therefore shall be perfect as your heavenly Father is perfect.—Matthew 5:48.
Lesson: Luke 6:27-28.

Devotional Reading: Matthew 5:1-10.

Explanations and Comments

1. The Law of Love, verses 27-31. See Matthew 5:39-41; 7:12; 5:42-48.—"But I say unto you love your enemies." Be ruled by love in your treatment of them. At the same time when Jesus uttered these words, revenge wreaked upon an enemy was considered noble. Recall how Cicero gloated over the misfortunes of his enemy; he thought himself fortunate on his deathbed that he could say no one had done more good to his friends nor more mischief to his enemies. "The Greek word for love in our text is carefully chosen. It is not demanded that we should love our enemies with a natural and spontaneous affection (phileo), but with a supernatural Christian love that comes by grace (agapan)." Expositor's Greek Testament.

We all agree with Francis de Sales who says: "It is easy enough to love those who are agreeable and obliging—what fly is not attracted by sugar and honey? But to love one who is cross, perverse, thresome, is as unpleasant a process as chewing pills." Nevertheless, this is the real touch stone of brotherly love. The way to practice it is to put ourselves in thought in the place of the one who tries us or mistreats us, and to see how we would wish him to treat us if we had his defects and misunderstandings.

We should love our enemies, but Dr. Shaller Matthews is right in saying that love for our enemies is not moral if it deadens our indignation against the crimes they perpetrate.

Good Reasons For Advertising

Southern Newspaper Gives Eight That Should Be Convincing

An enumeration of the reasons for advertising has recently been given out, says the Kingston Whig-Standard. There are eight reasons advanced, but there are many others, of course. However, here are eight that are very splendid and highly convincing, as given in a southern newspaper:

Newspaper reading is a universal daily habit; newspaper, therefore, reaches each day virtually all who buy.

Newspaper advertising is the life blood of local trade because it touches all consumer sources in every community. It gives the national advertiser the same opportunity for complete consumer appeal in any locality.

Newspaper advertising cuts selling costs because it entails no waste in locality of circulation. Manufacturers use it to cover markets where it is profitable to do business.

Newspaper advertising incurs quick, thorough and economical dealer distribution and dealer goodwill, because retailers are willing to sell products advertised direct to their own consumers.

Newspaper advertising enables manufacturers to tell where their products may be bought.

Newspaper advertising can be started or stopped over night, can be prepared between days to meet certain developments and to obtain immediate results.

Newspaper advertising enables manufacturers to check advertising which they enter.

Newspaper advertising costs less than any other kind.

The merchant or other business man who takes advantage of the opportunities offered by newspaper advertising to boost his business during the Christmas season will be able to face the quiet months of January and February without undue worry.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Wife—"The maid has just given notice; she said that you spoke in-buttlingly to her over the telephone, yesterday."

Husband—"Great Scott! I thought I was speaking to you."

By increasing the amount of moisture in the air during the winter, the wilting of plants indoors can be avoided.

Minard's Liniment for chapped hands.

"From the other end of the earth—"

we would send for Zam-Buk," writes Mrs. J. C. Lemon of 1102, East Broadway, Glendale, Calif., U.S.A. "In Ontario 20 years back we used it and we took supplies on with us into Michigan. Now we have Zam-Buk sent on to California."

"Zam-Buk is proved a sure remedy for skin troubles. I recall how when we lived in Canada my daughter burnt her face badly against the stove. Zam-Buk healed the sore in a few days. On another occasion my husband injured his foot. The wound went the wrong way and blood-poison made the flesh purple. When we got Zam-Buk on to the foot it soothed, cleansed and healed it in very short time. Promptly used, Zam-Buk prevents burns going deeper, and its antiseptic qualities are a sure guard against infection."

"Zam-Buk has done good in so many instances in our family that I don't know how we would get along without it."

-We would send for Zam-Buk

Whenever skin is cut, burnt, sore, inflamed or "broken-out" in any way, Zam-Buk is always the safest and most soothing healer. Purely herbed. 100 boxes for \$1.25 all dealers.

To Encourage Fur Farming

Marsh Lands in Saskatchewan Now Available for This Purpose

Negotiations between the Saskatchewan and Dominion governments regarding the leasing of marsh lands for fur farming purposes have now been completed and arrangements are being made by which the provincial authorities will lease certain crown lands for fur farming purposes, Hon. C. M. Hamilton, minister of agriculture, has announced.

Large areas of marsh lands owned by the crown are available for fur farming in the northern part of the province, but the area of such land in the south is relatively small, the water courses being more or less limited and homesteading having been carried on extensively.

Completion of the negotiations between the Federal and provincial governments means that applications may now be received by the Saskatchewan authorities from individuals desiring to take up such lands for fur farming.

Constantinople claims 20 of the 89 newspapers published in Turkey. The total daily circulation throughout Turkey is given as 171,400 copies.

Strange, Romantic Love Adventures of the Flapper you know

Joanna

by H. L. GATES

Copyright 1923 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

CHAPTER XXIII.—Continued

"What do you mean by that?"

"Only my careful deductions, my dear. I know you too well not to have my conclusions over every move you make. You've been so deliberate in your play that I know you can afford to take your time. That, to me, means you're holding a trump of some kind. I won't ask you if I'm right, for of course you wouldn't tell me—the truth anyway."

He answered something, but Joanna had conquered herself and shut the voices away from her. She recovered her crop, rose quietly and went toward the house.

CHAPTER XXIV.

Old Memories

In the house Joanna called her butler and inquired if any message, a telegram or cablegram, had arrived for her. The servant assured Mademoiselle none had. If John was coming, or, as she understood from the conversation she had overheard, he was already some place near in the South of France, he had sent her no word.

She knew he was in London. He had written from there, his usual letter, glowing with the details of his reception by British architects, telling of some of his plans, and restrained affectionate. He had said he would "run down" to the Mediterranean soon, but had mentioned no time. She made sure of this omission by hunting out his letter and reading it again.

She heard Yvonne come in from the grounds and found a reason for seeking her. They had not been together since the closing hour of the affair at Prince Michael's the night before. They had returned to Villa Amette in different parties and Joanna had retired at once.

Yvonne seemed to nourish no memory of what must have been her chagrin when the whisper went around at Michael's that the Golden Girl had stolen the prince away to a rendezvous that required less possibility of intrusion than that afforded by many palm hung nooks on his own estate. She talked of some of the details of the night before, and didn't mention

Salaries of Aviator Postmen

In Addition to Regular Pay They
Receive Mileage

The lure of flying holds its monetary reward, at least for the air mail pilot. The aviator postman receives an annual salary of between \$4,000 and \$9,000. The high pay, plus the desire for excitement, recently caused two field superintendents of the service to desert ground jobs and return to piloting. Both now fly on regular mail routes.

The mail pilot receives a base pay of between \$2,000 and \$3,600, depending on length of service, and is paid in addition by the mile for flying service. For daylight flying he receives a five-cent rate between Cleveland and Cheyenne, six cents between Cheyenne and Reno, and seven cents between New York and Cleveland and between Reno and San Francisco. For night flying the mileage scale is doubled.

The hazards of mail piloting are held by postal officials to justify the pay.

ing such a commotion just now? Wilmore, John Wilmore, I think it is. Sufficient importance for our esteemed journals to announce his arrival at Monte Carlo. Extraordinary compliment, what with so many dukes and their duchesses, right and left handed, arriving daily. Am I right Mademoiselle? Have I heard his name and yours together?"

Joanna answered quietly. "It is possible. You hear so much about names being linked together, down here." She smiled at him quizzically. He laughed pleasantly. Prince Michael was always pleasant, this Russian who found nothing in his thirty-five years to make him otherwise except on such temporary occasions as when outwitted in some amorous adventure. It was a pleasantness, though, that impressed as a mask. The night before Joanna had known quite well there would have been no wedding formalities if she had found herself in Genoa with him.

"What else would you have?" he wanted to know. "We have no wars to fight and no work to do. There is nothing left but pastime. People used to write poems and read Shakespeare. Rotten time they had of it. Today we invent pleasures to be built upon by our senses. That's more reasonable and it involves a learned knowledge of who belongs to who and what's the chances of taking her away from him? But we were talking of this architect fellow. Tell me about him, please. Seems to enjoy working at something."

"You'll have to satisfy my own curiosity first," Joanna declared. "Perhaps you'll send for the 'esteemed journal.' I'd like to know what is being said of him. He was a very struggling student when I saw him last."

An attendant quickly produced a copy of L'Echo which bore the morning's date. Michael pointed to a paragraph in the column of the new arrivals at the various resorts along the fashionable coast. Both Kenilworth and Yvonne watched her furtively when, with a murmured "Pardon!" she fastened her eyes on the short item.

"Among the bookings on the Blue Express at Calais yesterday was the distinguished young American architect, John Wilmore, who comes from a visit to London for an indefinite stay. He has made reservations at the Las Padoules. Mr. Wilmore's recent achievement of fame has been extremely interesting. It is understood that a year or so ago he was unknown. American capitalists suddenly appreciated the great merits of his daring conception of a war memorial in which are included some startling conventional features which have caused international discussion among artists and scholars generally. It is believed his work will be a valuable contribution not only to America but to society and the world in general."

The paragraph explained the knowledge of the others that John was coming; that he had arrived, for the Blue Express came in with the morning. But did not explain why he had

Use Cuticura
To Heal Slight Rashes

Before they become serious skin troubles. Bathe with Cuticura Soap and hot water, dry gently and anoint with Cuticura Ointment. Daily use of Cuticura Soap, assisted by the Ointment when required, keeps the pores active and the skin clear and healthy.

Sample Each Free by Mail. Address Canadian Representative: "The Cuticura Co., Montreal, P.Q." Soap 25¢, Ointment 25¢ and 50¢, Talcum 25¢, Cuticura Shaving Stick 25¢.

not notified her. Something about it all quivered at her lips, briefly.

"Extraordinary," Kenilworth remarked when she put the paper aside, "how a chap with nothing but a dream can suddenly stumble upon recognition and success. We all remember Wilmore in New York. If I remember, Miss Manners took occasion to be provoked with him."

"Then it was more than an acquaintance," Prince Michael declared. "One is never provoked with an acquaintance. We won't intrude upon that aspect, Mademoiselle," he added, to Joanna. "As you will probably present him, I'd like to know how he got on so well."

(To be Continued.)

Had Remarkable Cruise

Dutch Submarine Beats All Records
for Non-convoyed Voyages

A wave of enthusiasm spread over this city when a report was received that the Dutch submarine K-13 had beaten all records for non-convoyed voyages by reaching Soerabaya after 196 days at sea.

The K-13 is a boat of 820 tons. It left the naval base at Nieuwediep on May 27 for the Canary Islands.

After a voyage of 3,300 miles to Curacao, it proceeded to Panama and was the first foreign submarine to navigate the canal under its own power. From Panama the K-13 proceeded to Mazatlan, then to San Francisco and across the Pacific to Honolulu and Guam. It covered the 3,300 miles from Honolulu to Guam in nineteen days.

During the total of 20,000 miles covered in six and one-half months, the submarine used 206,000 liters of fuel oil and 7,500 liters of engine oil.

A MEDICINE THAT
ALL MOTHERS PRAISEBaby's Own Tablets Banish
Babyhood and Childhood
Ailments

Mrs. H. Oakes, Sarnia, Ont., says: "I have used Baby's Own Tablets in my home for the past fifteen years and I believe the good health my children enjoy is due entirely to this medicine. The Tablets are helpful at teething time; relieve colds and are always beneficial in the minor ailments of little ones. I have recommended Baby's Own Tablets to other mothers whose experience with them has been as satisfactory as my own."

Baby's Own Tablets do one thing only, but they do it well. They act as a gentle laxative which thoroughly regulates the bowels and sweetens the stomach, thus banishing constipation and indigestion; colds and simple fevers and turn the cross, sickly baby into a well, happy, laughing baby.

Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

I trust in the mercy of God for ever and ever.—Psalm III. 8.

For us, whatever's undergone, Thou knowest, wilt what is done; Grief may be joy misunderstood, Only the good discern the good; I trust Thee while my days go on.

I praise Thee while my days go on; I love Thee while my days go on; Through dark and dearth, through fire and frost,

With emptied arms and treasure lost, I thank Thee while my days go on.

—Elizabeth Barrett Browning.

It is the Lord, let Him do what seemeth good. Our part is to pray that we may bear patiently whatever trials may be allotted us, firmly trusting in His word that all things shall work together for good to them that love Him.

—Hannah More.

Sneezing?—Use Minard's Liniment.

Heroes Are Made

Because he had crawled out on thin ice and rescued a playmate who had broken through, little Willie was the centre of a group of admiring men and women.

"Tell us, my boy, how you were brave enough to risk your life to save your friend," said one of the ladies.

"I had to," was the breathless answer. "He had my skates on."

Easy Road—Good at start, but gets rougher'n a detour toward the home stretch.

Straight and Narrow Path—Full of holes, bumps and skiddy places at start but going gets easier towards the end.

For Colds—Minard's Liniment.

Listen!

Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.

Peps contains certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

While no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and healing commences.

FREE TRIAL. Cut out this article, write across it the name and date of this paper, and mail it (with 10c stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c box.

Peps

Britain Reducing War Debt

Since June 1923, Has Paid \$642,830,000
to United States

Sir A. Maurice Low, Washington correspondent of a London daily newspaper, sent a dispatch to his newspaper in which he called attention to the fact that Great Britain already had paid \$642,830,000 to the United States in carrying out the agreement made in 1922 for the funding of the British war-time debt to the United States. He indicated also that inquiries made by him at the British Embassy had demonstrated that there was no intention on the part of his Government of asking to be excused from carrying out its obligations.

"Payments began in 1923, when on June 15, \$69,000,000 was paid on interest. On December 15, a similar amount was paid, and \$25,000,000 on principal. In 1924 two payments of \$68,655,000 each were made on interest, and \$23,000,000 on principal."

"In 1925, semi-annual payments for interest were \$68,310,000, and \$24,000,000 on principal. This year the interest payments have been, semi-annually, \$67,950,000, and the payment on principal has been \$25,000,000."

"Summed up to date, Great Britain has paid to the United States \$547,830,000 as interest, and the debt has been reduced by \$95,000,000."

Most men find it easier to take two steps backward than to take one forward.

A Man of Rare
Professional Attainment

The originator of Dr. Pierce's Golden Medical Discovery was the late Ray V. Pierce, M.D. At first he practised medicine in Western Pennsylvania and his unusual ability and success were soon recognized there, then he moved to Buffalo, N.Y., and established the World's Dispensary where his famous home remedies have ever since been made.

Each succeeding year the sale of Dr. Pierce's Golden Medical Discovery has been greatly increased. Evidently people appreciate the fact that it increases the appetite, stimulates the digestion, helps to enrich the blood, clears the skin of eruptions and blemishes, and makes both men and women feel as they did when they were young. It contains no harmful ingredient.

Ask your nearest druggist for Doctor Pierce's Golden Medical Discovery, in tablet or liquid form, or send 10 cents for a trial package of tablets to Dr. Pierce's branch Laboratory in Bridgeburg, Ont.

White Fish

We will have a shipment of white fish soon. Owing to the very wet fall many fish were drowned. This caused a short crop, and fish consequently will be slightly higher in price this year.

H. E. Roppel, pastor

KNOX AND WESTCOTT UNITED CHURCH

The sermon for Sunday, January 9th is based on Matthew Chapter 27: verses 33 and 34. It is the story of the Dying Thief. In the story of the Dying Thief we have an account of the last soul coming into contact with Christ before His death. Here was a man who committed himself completely to Him. It is an arresting story. In the experience of Jesus it was a lonely hour. He had been very lonely all His life, and yet never alone, as He says, for His Father was with Him. But this was the hour of uttermost loneliness. He had come now to the deepest depths in human endurance. Jew and Gentile had joined hands in putting Him on the cross. Is there a more tragic sentence in the New Testament than that briefest one which says that "they all forsook Him and fled."

The sermon is one that you will not forget. It is the story of the Crucifixion and this is the heart of the Gospel. You who have neglected church for some time, come back and hear the story again.
